Picture contest Win \$30.00 (CAN) and be a contributing artist to the "Flight Cycle" graphic novel.

Amel, the protagonist of Lynda Williams' 10-novel Okal Rel Universe series, is on the run between books and needs the help of talented readers to illustrate the stories of his flight across space. A new installment will be available to illustrate every two months. Each installment needs an illustration and the artist could be different each time. The first submission for an illustration to impress contest administrator and artist Brianna Thomas will be used for that installment and receive \$30 CND in prize money. Additional submissions may be used, with permission, on the website. The "Flight Cycle" stories will be displayed on the web as work in progress and donated to the creative commons as a finished work to help get the word out about the Okal Rel Universe. All contributors' names will be included in the distributed product with artist credits.

The Okal Rel Universe is a small but growing phenomenon, based on the published works of Lynda Williams, that honors the origins of Lynda's work by engaging others creatively. Other products of the process include a series of anthologies featuring stories by others that are set in the Okal Rel Universe, and an upcoming book of poems set in the Okal Rel universe.
